

New! Double Date Stamp

Patented Cumsa System

12 months + 6 years

Special Engravings for outer rings available upon request!

What's Important

Double Date Stamp

- Has 12 months and 6 years eliminating the arrow replacement at the end of each year
- The 12mm Double Dater* provides the same markings as a standard dater
- The same height is always maintained between all rings

To change month

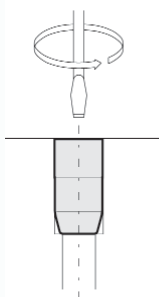

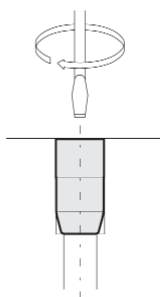

Fig.2

To change year

Part Number	Contains
FD 120812	12 months + 6 years

NOTE:
To specify year add the two digit year to the end of the part number. I.E. FD 120812-05

IMPORTANT:

To change the month, turn counter clockwise (the two inner rings move, Fig 1). To change the year, turn clockwise (only central ring moves, Fig 2).
