- Hardened rods with lengths up to one meter (39.37")
- Pins can be cut to length, eliminating the need to stock various ejector pins

When ordering, indicate the desired L dimension.

Headless Ejector Sleeve

Patented Cumsa System

What's Important

- **Maximum Bearing Length**
- Similar to the Headless Ejector Pin with the advantage of maintaining maximum bearing length
- Sleeves are cut to length opposite bearing end
- Available in lengths up to 800mm (31.50")
